Strobe Only

Horn Only

The Macurco Notification series is designed for spaces where distinctive visual or audible signal is required. The family is comprised of horn only, strobe only, or combination horn/strobe. These devices use low current to provide a high decibel output, and can be easily seen and heard from afar. The product offering works well with Macurco products including the Macurco control panels and the Macurco 6 & 12 Series detectors. This notification device can be flush or surface mounted on a standard 4" x 4" electrical box.
